

## CHAIR SCALE

### SSEC551 (class III)

New and Innovative Design

Improved scale capacity, up to 300 kg.

Compact packaging size: 550 x 750 x 600mm

Total product weight: 18kg (including packaging: 20kg)

New, user-friendly indicator, with easy to operate buttons

#### Features

- Movement compensation technology
- BMI (body mass index) function
- Tare
- Reweigh
- Zero
- Hold
- Healthweigh Platinum Indicator
- 6-digit 1" LCD
- Updatable firmware
- Hinged Arm Rests
- Easily manoeuvrable castors

#### Communication

- RS232 port
- Optional: USB port; Bluetooth
- Optional: Smart com box enabling a large variety of communication possibilities.

#### Power

- 230v\120v input, DC 9V output
- Auto power off
- Rechargeable battery
- Low battery indicator
- AC adapter plug storage

#### Technical Data

- Class III
- Capacity 300kg
- Resolution 100g

The armrests can be lifted separately, allowing the patient to slide from his chair to the chair scale while leaning on the prone armrest. The footrest can be folded as well for easier access.

## **Bariatric Hand Rail Scale**

### **SSEC 251 (class III)**

The 251 Electronic Handrail Scale is Ideal for bariatric use.

The side rails gives support to unsteady patients and movement compensation technology elimination involuntary movement.

Assembly is effortless; a pop-up patent hinge-joint sets the back rail upright in seconds and the side rails slot-in. Two heavy-duty wheels make it easy to move the scale between consulting rooms.

#### **Features**

- Movement compensation technology
- BMI (body mass index) function
- Tare
- Reweigh
- Zero
- Hold
- kg / lb
- Healthweigh Platinum Indicator
- 6-digit 1" LCD

#### **Communication**

- RS232 port
- Optional: USB port; Bluetooth
- Optional: Smart com box enabling a large variety of communication possibilities.

#### **Power**

- 230v/120v input, DC 9V output
- Auto power off
- Rechargeable battery

#### **Technical Data**

- 300kg Capacity
- 100g Resolution
- 500 x 640mm platform

Folded, pre-assembly

## Wheelchair Scale

### SSEC 351 (class III)

The 351 Electronic Wheelchair Scale answers both patients and carers' needs.

The scale is very accessible, thanks to the exceptionally wide side ramps.

Advanced movement compensation technology eliminates involuntary movement made during the weighing process and ensures exact weighing information.

Manual/Automatic Tare option enables weight of wheelchair to be subtracted.

#### Features

- Movement compensation technology
- Two extra long ramps
- BMI (body mass index) function
- Tare
- Reweigh
- Zero
- Hold
- Healthweigh Platinum Indicator

#### Communication

- RS232 port
- Optional: USB port; Bluetooth
- Optional: Smart com box enabling a large variety of communication possibilities.

#### Power

- 230v/120v input, DC 9V output
- Auto power off
- Rechargeable battery

#### Technical Data

- 300kg Capacity
- 100g Resolution
- 1000 x 940mm platform

- Low battery

The scale has patented hinge joint for simple assembly and can be folded and transported on two heavy duty wheels.
